

Shippers Certificate For Live Animals

(Shippers must complete the form in duplicate)

Air Waybill Number		Species and Breed				
Number of Containers		IATA LAR CR#				
All questions must be answered with a checkmark <input checked="" type="checkbox"/>						
Section A: To be completed by ALL shippers			Yes	N/A		
1	A confirmed booking exists for all sectors of the route.					
2	The shipment is properly described and packed, in proper condition for carriage by air according to the current edition of the IATA Live Animals Regulations and the applicable container requirement.					
3	The animal(s) in this shipment are in good health and condition.					
4	If any animal in this shipment has been taken from the wild, it has been appropriately acclimatized.					
5	If this shipment includes species as described in the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES), all applicable permits/certificates have been provided.					
6	If this shipment contains reptiles/amphibians, they have been examined prior to packaging and found healthy and free of any injury, diseases, parasitic infestation (e.g. mites, ticks or leeches etc.).					
7	All regulatory requirements have been reviewed and all applicable documentation, certification, microchips, permits and vaccinations are provided for the county(ies) of origin, transit and destination.					
8	The animal(s) in this shipment are not restricted by national, provincial, or municipal regulations.					
9	I certify that the animal will not require any routine medication during transit. Warehouse or airline staff are not able to administer medication of any type.					
10	Where required, a veterinary certificate has been issued stating that the animal is fit to travel. (Note: Pregnant monkeys, nursing females with suckling young, and unweaned animals are not accepted for air transport.)					
11	The consignee has been advised of the flight details in order to arrange immediate retrieval of the shipment on arrival.					
12	If the animal has been sedated, this has been administered and documented by a qualified veterinarian prior to travel. (Sedation is not recommended by WestJet due to increased mortality risk).					
Section B: To be completed by shippers of pets (cats and dogs) only						
	Pet's Name		Age			
13	I certify that the animal(s) in this shipment is not a strong breed of dog (or any mix thereof) over 6 months old or I am an IPATA registered agent.					
14	For strong breeds of dog over 6 months old, the kennel meets or exceeds the requirements of CR-82.					
15	As a shipper of a brachycephalic breed of dog or cat, I have properly assessed the risk of transporting the animal(s) by air and am aware of the increased risk of death to the animal(s) in transit.					
16	I certify that the animal(s) in this shipment is not pregnant and has not given birth in the last 7 days.					
17	If shipping dogs to or through the US, the shipment is compliant with the CDC's minimum age requirements, current anti-rabies regulations and up-to-date vaccinations as required by US federal and/or state law have been administered.					
18	Does the shipper accept charges for planned/unplanned comfort/well-being stops, and overnight kenneling fees that may be required during transit?					
19	The animal(s) has undergone a veterinary examination to confirm fitness to travel and a Vet's Certificate is attached prior to international shipment and/or if one of the following conditions apply: <ul style="list-style-type: none"> • Any breed between 8 and 12 weeks old. • Any breed or age post-surgery. • Brachycephalic breeds of any age. • The animal has been sedated. 					
Section C: Declaration to be completed by ALL shippers						
WARNING! The shipper's failure to comply in all respects with the applicable IATA Live Animals Regulations and any other international and/or national government regulations may be in breach of applicable law and subject to legal penalties.						
By signing this declaration, the shipper accepts that carriers will not be liable for any loss, damage or expense arising from death due to natural causes, or death or injury of any animal caused by the conduct or acts of the live animal itself or of other animals, such as biting, kicking, goring or smothering, nor for that caused or contributed to by the conditions, nature or propensities of the animals. In no event will carrier be liable for death or injury to an animal attendant caused or contributed to by the condition, conduct or acts of animals. WestJet does not actively monitor temperature and environmental conditions at origin, transit and destination airports. The shipper accepts the risk of transporting a live animal, including, but not limited to, exposure to hot, cold or adverse environmental conditions during normal handling. The carrier shall not be liable for death or injury of any animal in any event other than due to failure to comply in all respects with the applicable IATA Live Animals Regulations and any other international and/or national government regulations.
